

CaseWorX Release Notes

Versions: 3.5.0.70, 3.5.0.68, 3.5.0.65

New Functionality:

- New Phase Movement Interface
 - As we prepare to roll out the Transfer feature (coming in the next few months), we are updating the interface for Phase Movement. Now, to initiate a Phase Movement, you will click on an orange "Record Phase Movement" button that can be found either in the Phase Movement widget or in the blue bar across the top of your screen.
- New widget: Medical Conditions
 - This widget will allow you to track medical conditions that might impact your participants, including chronic conditions like diabetes, as well as conditions that have a start and end date, such as pregnancy. If you would like this widget added to your system, please contact support.
- New sub-widget: School Events (Juvenile Courts)
 - This is a subwidget to the School widget that allows the user to document events that might occur in school, such as disciplinary actions. Please contact support if you would like this subwidget added to your system.
- New fields:
 - Demographics Widget: Gang-Related Activity
 - This is a field that tracks whether the individual has a history of gang-related activity. Please contact support if you would like this added to your system.
 - Current Charges: Expungement
 - This is a yes/no dropdown field where the user can track whether a charge has been expunged.
- New functionality with the Ad Hoc Court Calendar:
 - Phase Ordering
 - Users of the Ad Hoc Calendar can now change the ordering of the participants in the calendar by phase.
 - New Fields:
 - Risk Assessment: will pull the result of the most recently entered risk assessment
 - Team Members: will list the role as well as the team member
 - Criminogenic Need: pulls from the High Criminogenic Needs widget; will display the area of need, the level of need, and any comments associated with the area of need.
 - Most Recent Positive: displays the date, method, and substance of the most recent positive drug screen
 - # of Screens Since Most Recent Positive

Fixes:

- Print Button for ID Cards
- Social Security Number Display
